

THE BOURBON NEWS

PUBLISHED EVERY TUESDAY AND FRIDAY IN THE YEAR.

VOLUME XXXVI.

PARIS, BOURBON COUNTY, KENTUCKY, FRIDAY, MARCH 9, 1917.

Late War Bulletins.

CHICAGO, March 8.—Should open hostilities be declared between the United States and any other nation, the government would have at hand ready for instant-duty a force of more than 21,000 physicians and surgeons thoroughly equipped for medical service work.

LONDON, March 8.—The American Ambassador at Vienna has been handed the reply of the Austrian government in regard to the unrestricted submarine warfare, according to a Vienna dispatch to Reuter by way of Amsterdam.

The reply declares that neutrals are responsible for losses they suffer by entering territory where warlike operations are taking place.

MINNEAPOLIS, March 8.—Officers of the First Minnesota Infantry, returning to Fort Snelling from the Mexican border announced that Paul L. Schraffenberg, of St. Paul, a private in Company L, First Minnesota Infantry, was sentenced to five years imprisonment at Fort Leavenworth, Kas., on February 5, by a court martial at San Antonio, Tex., for furnishing military information to Germany.

WASHINGTON, March 8.—The definite impression that American merchantmen would be armed in the near future gained ground to-day following conferences between President Wilson and administration officials and Democratic Senators.

TOKIO, JAPAN, March 8.—The diplomatic rupture between the United States and Germany was welcomed with enthusiasm throughout Japan. The press devoted columns to the telegraphic reports announcing the break and to the observations of diplomats and publicists on the situation.

The interviews given by prominent diplomats and navy officers, all unnamed to the press, unanimously agreed that as the American navy is one of the strongest in the world, it would be an easy task to help crush the German naval power in event of a declaration of war and thereby accelerate the termination.

TOKIO, March 8.—An additional statement issued by the Japanese foreign office referred to frequent attempts of Germany "to sow seeds of distress between Japan and Great Britain and to cause the estrangement of Japan and the United States.

BERNE, SWITZERLAND, March 8.—(Via Paris).—Although most of the German language newspapers in Switzerland thus far printed without comment the Zimmermann note, made public through the revelations from Washington of the German plot to involve Mexico and Japan against the United States, the *Nashrichten* (Basel) brands Germany for "having high morality and acted in an exactly opposite way."

WASHINGTON, March 8.—The War Department has directed that between 5,000 and 6,000 enlisted men of the army be designated by regimental commanders for commissions as company officers in whatever army may be raised.

Orders have been sent to each regiment to select sixty men who will be eligible for commission up to and including captains.

BOURBON FISCAL COURT.

The March term of the Bourbon Fiscal Court convened in the County Court room in the court house Tuesday. Judge McMillan presiding and Magistrates Martin, Stephenson, Redmon and Shropshire present.

Bids for the reconstruction of the Paris & North Middletown pike were opened by the Court, and after consideration of the figures, the contract was awarded to Messrs. Woods & Cain, of this city, they being the only bidders from Bourbon county. The contract, which will be partly paid from the State Road Aid Fund, will amount to about \$21,000, and is exclusive of three bridges which will have to be built on this pike.

The Court instructed County Road Engineer Ben F. Bedford to purchase a five-ton White motor truck for hauling crushed rock for turnpike purposes. Mr. Bedford was instructed to advertise for bids for the machine.

All the bids on culvert work for the pikes were rejected and Road Engineer Bedford was instructed to advertise for new ones. Squires Redmon and Stephenson were appointed a committee to open the culvert bids and to award contract for same.

The report of County Road Engineer Bedford for the month of February was read, approved and ordered filed.

County Treasurer S. E. Bedford was authorized to borrow \$12,000 from the Garth Fund and to execute the county's note for same, payable January 1, 1918.

Claims against the county amounting to \$694.27, were allowed and ordered paid. The Court adjourned to March 22.

WITHDRAWS FROM RACE.

Mr. Ben B. Spears, who is at present filling the position of private policeman, and who some time ago announced his candidacy for Chief of Police of Paris, has withdrawn from the race.

Mr. Spears stated to THE NEWS Wednesday night that he had given the matter of withdrawal considerable thought, and had decided that he would be unwilling to incur the heavy expense of making the race, and would remain in his present position. Mr. Spears has made a faithful and most excellent official.

TOBACCO MARKETS.

As practically all the tobacco in this section has now been placed on the market, the managers of the three Paris loose leaf tobacco warehouses at a recent meeting, decided to close the season on next Wednesday, March 14. Some of the buyers have already returned to their homes, while others remaining are taking things easy. The Paris market has been one of the best in the State. The money realized from the tobacco crop handled in this market has passed mostly into the trade channels of the city and county, and the industry has given employment to over one hundred and fifty persons in various capacities.

BOURBON WAREHOUSE — WEDNESDAY, MARCH 7.

The Bourbon Tobacco Warehouse sold Wednesday 9,310 pounds of tobacco for \$1,626.87, an average of \$17.47. The market showed more strength than at recent sales. Some crop averages follow:

Frank Collins sold 2,510 pounds, average \$19.09.

Grover Harney sold 1,915 pounds, average \$17.52.

C. Daniel sold 1,465 pounds, average \$16.87.

C. A. Webber & Watson sold 1,630 pounds, average \$16.79.

Caldwell & Watson sold 880 pounds, average \$15.84.

To date this house has sold 5,821.745 pounds of tobacco for \$1,073,093.43, an average of \$18.43 per hundred, which is considered to be the highest general average in the State. The last sale of the season will be held on Wednesday, March 14.

BOURBON WAREHOUSE — THURSDAY, MARCH 8.

The Bourbon Tobacco Warehouse Company sold 36,680 pounds of tobacco for \$6,492.24, an average of \$17.99 per hundred. The market was strong and active. The next sale will be held this morning at 9:00 o'clock.

INDEPENDENT HOUSE — THURSDAY MARCH 8.

A total of 21,963 pounds was disposed of on the Independent's floor for an average of \$18.06. The market was strong. The closing sales at this house will be held on Wednesday, March 14.

MR. THOMAS PROBABLE LEGISLATIVE CANDIDATE

A call published in the columns of a local paper, requesting Hon. Claude M. Thomas to become a candidate for the Democratic nomination for Representative in the Legislature from Bourbon county, has been taken under consideration by that gentleman. Friends throughout the county are urging him to make the race.

Mr. Thomas has represented the county in the Legislature two terms and served one term in the upper house of the legislative branch as State Senator from the Bourbon-Clark-Montgomery district. During his term in the upper branch he introduced and fought successfully for the County Unit Bill, and was the leader of the "dry" forces when the bill was passed.

Should Mr. Thomas heed the request of his friends and become a candidate he would enter upon the campaign with the prestige his former record in office brought him, and would make a most formidable opponent for any other who might announce.

MISS ROBBINS ANNOUNCES FOR SUPERINTENDENT.

Some days ago THE NEWS man

asked Miss Mabel Robbins, the capa-

ble and most efficient incumbent of

the County School Superintendent's

office, if she would be a candidate

for re-election. Miss Robbins laugh-

ingly answered, "I have not consulted

my cabinet yet." A diplomatic

answer, but one full of possibilities.

In this issue of THE NEWS Miss Robbins makes public her announce-

ment as a candidate for the nomination

at the primary in August.

Bourbon county has never had a

more capable or more worthy occu-

ant of the County School Superin-

intendent's office than Miss Robbins,

who, in the discharge of her duty,

has been at all times painstaking and

thorough, giving her entire time and

attention to the work. She has al-

ways been courteous and attentive,

and has been one of the most earnest

workers for the cause of education

the county has ever had. To say

much in little, Miss Robbins has been

an ideal Superintendent.

During her administration the

school tax in Bourbon county has been

only ten cents on the one hundred

dollars, with no poll tax to be relied

upon for school purposes, while in

other counties in the State it has been

anywhere from 12½ cents to 20 cents

The county has had longer school

terms with the exception of three

than any other county in the State.

The teachers of the Bourbon county

schools, during her term of office have

received better salaries than those of

any other county in the State, with

the exception of Fayette county. Miss

Robbins' official record will be one of

the best campaign arguments she can

use in the contest, and her personal

popularity among the teachers and

the patrons of the county schools will

count for much.

THREE POPULAR GENTLEMEN MAKE UP SHERIFF'S TICKET.

In another column of to-day's BOURBON NEWS will be found the official announcement of Mr. W. G. McClintock for Sheriff of Bourbon county. When elected Mr. McClintock will have Messrs. J. O. ("Doc") Marshall and Robert ("Bob") Gilkey as his deputies.

These gentlemen have already seen nearly every voter in Bourbon county and solicited their support, and from all reports have the pledges of a large majority of the voters in the county.

All three of these gentlemen are qualified in every respect to fill the office to which they aspire with credit and will make ideal officials. They have all had practical experience and have certainly proven themselves worthy Democrats, as they have at all times been leaders in the fighting forces of Bourbon's Democracy.

Mr. McClintock, who heads the ticket, has worked untiringly for all the nominees who have been candidates in the past on the Democratic ticket, and has spent both time and money freely to defeat the Republican who may have had the nerve to try and defeat a good Democrat in Bourbon county. He is fearless, honorable and efficient, and "Will G.'s" word is taken as his bond. He should not have opposition.

The deputies are both popular and deserving to serve on the ticket with Mr. McClintock. They, too, have been faithful Democrats and good officers in the past, and should have the endorsement of a large majority of the voters at the coming primary.

OFFICERS ELECTED FOR EDUCATIONAL DIVISION BOARDS

In another column of to-day's paper will be found the official announcement of Mr. L. A. Soper, as a candidate for Sheriff of Bourbon county. Mr. Soper has selected as running mates on the ticket Messrs. D. E. Clarke and L. C. Ashcraft, who will be the deputies, if the ticket is a winning one.

Mr. Soper is a prominent Democrat, who has until recently resided in the Flint Rock neighborhood, where he was in business for a number of years. A short time ago Mr. Soper moved to Paris, and is now a voter in town. If elected to the office of Sheriff he no doubt will fill the office with credit.

Both the gentlemen who will make up the balance of the ticket are well known, Mr. Clarke being from the Millersburg precinct and a successful business man in that little city, and will no doubt make an active campaign.

Mr. Ashcraft is a high-class gentleman and a man from the Escambia neighborhood and will add strength to the ticket.

BOURBON LODGE I. O. O. F. MAKES DONATION.

At the meeting of Bourbon Lodge I. O. O. F. last Monday night the sum of \$100 was made a donation toward the entertainment of the Sovereign Grand Lodge of the World, which is to convene in Louisville, on September 16-30. At the meeting last Monday night the degree team conferred the Third Degree on the following candidates: Joseph James, P. A. Thompson, Allie Rowland and George Batterton.

FARMERS' INSTITUTE.

The third annual meeting of the Bourbon County Farmers' Institute convened at the old Christian church building in North Middletown yesterday morning, with a good attendance. The proceedings were opened with an address by Hon. Matt S. Cohen, Commissioner of Agriculture, on the subject of "Kentucky's Agricultural Opportunity." Mr. Cohen was followed by Prof. W. D. Nichols, of the Kentucky Agricultural Experiment Station of the University of Kentucky, who spoke on "Dairying on the Farm."

In the afternoon Mr. Geoffrey Morgan, spoke on "Community Organization," followed by Prof. George Roberts, on "Legumes," and Miss Mary E. Sweeney, on "Rural Home Economics." The night program was devoted to an address on "The Future of the Kentucky Mountains," by Lieut.-Gov. Jas. D. Black.

The program for to-day is as follows: Address in the morning by R. L. Blairstock, on "The Good Shepherd;" C. W. Matthews, on "The Orchard." In the afternoon Hon. Reuben Hutcherson will deliver an address on "The Proposed Tax Law For Kentucky;" Charles V. Truax, on "The Care of the Pig;" and D. D. Slade, on "The Baby Chick." At night Prof. H. H. Cherry, President of the State Normal School, at Richmond, will address the audience on the subject of "Efficiency and Waste." The session will continue through to-morrow, closing with a musical concert by the Chat ham Concert Company to-morrow night.

shortage and high prices of potatoes confronting the country at large. People may forego potatoes for the time to the table in preference to paying 5½ cents per pound, but the question up to the planter is far more serious and involves the supply for another year at least, and may cripple an industry of great magnitude in Bourbon county.

Seed potatoes in the Western markets are selling for \$3.25 per bushel or \$0.75 per barrel. This is an increase of about \$7 per barrel over prices at planting time in other years. Four barrels of potatoes are required to an acre of ground for planting. In other words, the seed will cost the planter this year \$39 to \$40 per acre, even if they can be had at any price.

MRS. KIESO SICK SEVEN MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unfit to do my housework, I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is."—Mrs. CARL A. KIESO, 596 North Ave., Aurora, Ill.

The great number of unsolicited testimonial on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

CLUBS MUST PAY A LICENSE FEE

Private clubs in which there are located pool and billiard tables will be compelled to pay a special government stamp tax in the future, and will come under the ruling of the treasury department of September 8, 1916. Heretofore pool and billiard tables in private clubs have been exempt from government tax, but the recent ruling disposes of that of October 22, 1914, and the special tax will in the future be levied, and collected by revenue officers. The number of existing pool and billiard tables in such places which are operated for the amusement and pastime of club members, have been turned into the revenue department of the government.

RANK FOOLISHNESS.

You occasionally see it stated that colds do not result from cold weather. This is rank foolishness. Were it true colds would be as prevalent in midsummer as in midwinter. The microbe that causes colds flourishes in damp, cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effectual and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere.

YOU CAN'T FIND ANY
DANDRUFF, AND HAIR
STOPS FALLING OUT.

Save Your Hair! Make It Thick,
Wavy, Glossy and Beautiful
At Once.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by care less treatment. A 25-cent bottle will double the beauty of your hair. (adv.)

PROPOSITION TO HOLD SATURDAY STOCK SALES

A proposition to hold stock sales in Paris on Saturdays has been attracting much favorable comment from the stock men who were routed by the miserable weather of last Monday, March court day.

Many stock dealers and traders who had been getting their stock in to bring to Paris for the sales last Monday and were prevented by the deep snow drifts and cold weather, have announced themselves as being heartily in favor of the proposed sales. One Harrison county dealer had been making preparations to bring a large number of cattle here Monday, but the weather scared him off. The proposition now is to have sales here to-morrow (Saturday). It is a good move, and should be encouraged.

HERE'S A HAPPY "TANLAC FAMILY"

Sisters Join Their Mother In Declaring Tanlac Meant New Start In Life For Them.

MRS. JOHN LOWE.

MISS FRANCES BURNETT.

MRS. S. C. BURNETT.

"Someone suggested the other day that we tack a sign on our house saying, 'This is a Tanlac Family.' That's because my two daughters and I talk so much about Tanlac. We all wear the Tanlac Smile, too," Mrs. S. C. Burnett, 1408 Walnut street, said.

"But why shouldn't we talk about it when we feel that it has done us a world of good. Everyone of us has been helped by Tanlac and I'll tell you we can't say too much for it."

"First my older daughter, Mrs. John Lowe, tried it. She had lost 30 pounds and was so run down and nervous that even the rumbling of a wagon or the slamming of a door would upset her for hours. We feared we would have to send her to a hospital."

"I honestly believe that Tanlac saved her from complete breakdown. Nothing else seemed to help her. But Tanlac put her on her feet again right quick. Today she is one of the happiest women in Cincinnati."

"Then Frances became run down—sort of half-sick. She had dizzy spells. We were going to take her out of school because she kept complaining of spots and webs before her eyes. Her complexion got pasty and she didn't look a bit well. Tanlac however, proved to be just the thing she needed and now she is back in good health again."

Mother Was Half-Sick.

"As for myself, I felt almost the same as Mrs. Lowe. My stomach troubled me. My appetite was poor and I suffered after eating with bloating and belching of gas. But with the help of Tanlac I got rid of these troubles and now I feel simply splendid."

"But I started out at first to tell

DANISH FARMERS CO-OPERATE

Denmark exports forty million eggs a year—a number of which puts her at the head of egg-exporting nations. The high reputation of the Danish egg is to be maintained by a further development of the wide and close organizations which unites the producers. Central collecting depots for eggs have been established in the smallest towns. As each farmer brings his eggs, they are stamped with his number, and a letter standing for his particular branch. From there they go to a larger station, where they are candled, graded and sorted for size. Any stale eggs that are detected can be traced to the producer by the number and letter. For the first offense the guilty farmer is fined; for the second he is liable to expulsion from the association.

PROSPECTS GROWING BRIGHTER FOR BLUE GRASS LEAGUE

Interest in the reorganization of the old Bluegrass League, which has bobbed up and down like the mercury in a thermometer during the trying days of Spring, is again taking on new life, fanned by the news that reached Paris Wednesday to the effect that the work would now surely go forward.

Those who have been directly interested in the movement have been vastly encouraged by this late news and they now declare that the Bluegrass season will reopen here and in the other towns in the proposed League. Mr. William Watkins, of Maysville, a strong supporter of the game, and one of the strongest lights in minor base ball in Kentucky, who is as well known in Ohio as he is in Kentucky, has issued a call for a meeting of those interested in the movement, to be held in Cincinnati at once. It was the original intention to hold the meeting in Lexington, on account of its central location, but after consultation the meeting place was changed to Cincinnati. Representatives from all the towns mentioned as candidates for the League will attend this meeting.

A brilliant prospect has been opened up to the promoters with the news from Covington that Garry Hermann, owner of the Cincinnati Reds, has at last given his consent to allow the Blue Grass League to place a team in Covington. It was the threatened invasion of the river town in 1913 that caused the expulsion of the Blue Grass League from the protection of the National Baseball Commission. There was a ruling that a minor league could not place a team in the five-mile limit of a major league. Covington was within the limit and when the magnates were too strenuous in their demands on the commission they were outlawed. The Blue Grass League had been a success financially, and many star players were graduated from the teams then playing.

According to the information reaching here Wednesday it has been practically settled that the towns which will be represented in the League are: Paris, Maysville, Lexington, Winchester, Covington, Newport, Frankfort and Richmond, with Georgetown, Lawrenceburg, Versailles, Shelbyville, Mt. Sterling and Nicholasville all trying to have the limit extended so as to take them in.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED.

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excrements from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months. (adv)

GLASS WHICH CANNOT BE SHATTERED

A new glass, transparent, tough and strong, which has all the advantages and none of the defects of brittle, fragile window glass, has been invented.

A twenty-two caliber bullet cannot penetrate it; a brick cannot shatter it; a heavy man thrown against it under all the terrific momentum of a collision would not go through it, but would be thrown back from it, uninjured by flying glass, because none would fly. A stone thrown against it will bounce back like a golf ball.

The secret of its strength, says the Popular Science Monthly, is a sheet of white, transparent celluloid, twenty-one thousandths of an inch thick, which is placed between two pieces of glass. The glass and celluloid are simply welded together under high temperature and tremendous pressure, the resultant being a solid sheet possessing all the transparency of the best plate glass, combined with the strength of a sheet of metal.

BAD COLDS FROM SUDDEN CHANGES.

Spring brings all kinds of weather and with it come colds and the revival of winter coughs and hoarseness. Dr. Bell's Pine-Tar-Honey will head off a new cold or stop the old one, the soothing balsams relieve the sore throat and heal the irritated tissues. Get a bottle to-day and start treatment at once. BASKET BALL WARNING.

Caution against overexertion when playing basket ball has been given to Cincinnati school pupils by Dr. Carl Zeigler, Director of Physical Training, who says tests have demonstrated the game to be the most strenuous played by young people. Tennis, perhaps, rather than football, is a close second, he says.

Basket ball, of all the sports, is most likely to cause heart lesion, a dangerous disorder which restricts all future activities of the athlete. Girls, said Dr. Zeigler, should never play the regular game of basket ball, and boys should play no more than one or two games a week. He warns principals of schools against permitting boys to belong to more than one team, and says playing on outside teams should be prohibited.

Dr. Zeigler says examination of players in all games should be made before and after participation.

ENDORSED AT HOME.

Such Proof As This Should Convince Any Paris Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Paris adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

H. C. Hutchcraft, 1115 Main street, Paris, says: "I have used Doan's Kidney Pills off and on for a great many years and with good results. Whenever I have suffered from weakness or lameness across my back, I have always found Doan's Kidney Pills, purchased from the Arderly Drug Co., never fail to relieve me of the complaint."

ADVANCED PRICE.

Following the example of hundreds of other weekly and semi-weekly Kentucky papers which have been compelled to advance their subscription prices on account of existing difficulties in the high price of paper, material, etc., the Cynthiana Democrat, one of the best county weeklies in the State, has raised its subscription price to \$1.50. They will all have to come to it, sooner or later, if present conditions continue.

SPRING COLDS ARE DANGEROUS.

Sudden changes of temperature and underwear bring spring colds with stuffed up head, sore throat and general cold symptoms. A dose of Dr. King's New Discovery is sure relief. This happy combination of antiseptic balsams clears the head, soothes the irritated membranes and what might have been a lingering cold is broken up. Don't stop treatment when relief is first felt as a half cured cold is dangerous. Take Dr. King's New Discovery till your cold is gone. (adv-mar)

THINGS TO WORRY ABOUT.

A big red-breasted robin and a little house wren chirped merrily Saturday morning from a tree top in a yard on Pleasant street: "Cheer up! Cheer up!" Guess we all will, as soon as the weather man can be assassinated, hung, poisoned, or otherwise disposed of! The robin and the wren had the best of the situation, and could afford to be "cherry," not saving to tramp through the slushy streets of Paris.

BRITISH AVIATION.

Experts in the problems of American aviation are feeling more cheerful over our prospects in the field of flying as the result of publication of a report by the British government on the British aviation corps. The report shows that at the beginning of the war Britain was little better prepared in the matter of aeroplanes than the United States is today. England had only 175 aeroplanes in July, 1914, according to the report, less than half of which were fit for service. The exact present strength is not made public, but it is admitted that Great Britain now has over 4,000 serviceable machines available.
